Parent Reel Packaging and Handling Solutions

Solutions
FLEXIBILITY TO MEET YOUR NEEDS

Compact Reel Handling System including Airshaft Extraction, Reel Upending, Core Handling & Airshaft Re-Coring. From the reel to the warehouse, Mechadyne equipment will help your mill meet today's challenges and the demands of tomorrow's customers.

Mechadyne is dedicated to providing high performance roll packaging technology to worldwide manufacturers of tissue products. Specializing in the design and manufacture of equipment and systems for the handling, packaging and identification of parent tissue, towel and napkin reels, we know that among the most important solutions our customers require are quality packaging, minimal loss due to environmental contamination, clear predictable labeling and limited operator interface. Mechadyne provides these solutions, and more, for manufacturers of parent reels as well as roll converters.

...trust Mechadyne to protect your products!
